

ThermoCall/ ThermoConnect Compatibility List

January 2019

ThermoCall/ThermoConnect for OE Telestarts

TC4 Entry & Advanced/ ThermoConnect

For some brands the ThermoCall/ ThermoConnect receiver can be mounted in between OE cable harness and OE Telestart receiver using an adapter cable.

HowTo:

1. Disconnect OE Telestart receiver from OE cable harness
2. Connect adapter cable in between
3. Connect receiver (TC3 / TC4 Entry & Advanced) to 4 pin connector of the adapter cable

Material number: 1319873A
Adapter cable for OE-heaters
using standard Telestart receiver

Material number: 1320931A
Adapter cable for OE-heaters using
VAG Group specific Telestart receiver

ThermoCall/ThermoConnect for OE Telestarts

TC4 Entry & Advanced – Operation Modes

Parameters for different **ThermoCall Integrations** / Operation mode:

- Operation mode setting
 - 1234op:0 – to be send via SMS to set steady mode
 - Needed for Telestart receivers with a steady high input according the duration
 - 1234op:1 – to be send via SMS to set impulse mode
 - Needed for Telestart receivers with a high impuls input to activate and deactivate heating or venting
 - **Attention:** Turn off by the control device which turned the heater on
 - **Attention:** The maximum duration of the ThermoCall must be lower than the set up in the driver information system
